SAVE MONEY IN COMMUNICATIONS!

ECONOMICAL RADIO RECEPTION on those EXTRA CARS without 2-way Radios! For: AUXILIARY FIREMEN! VOLUNTEER WORKERS!

So They Can Keep In Touch!!

FOR YOUR CARS WITH 2-WAY RADIOS TOO!

Listen to EXTRA Channels when needing information! • In EMERGENCIES Keep In Touch with other services! • Receive VALUABLE DATA from State Police—HyWay Patrol—and other important channels! • Continuous weather reception on 162.55 mcs! • AND OTHERS!!!

ALL THIS ON YOUR BROADCAST RADIO WITH

SPACE AGE TUNAVERTER with SQUELCH!

Radio Frequency converters that enable your regular AUTO and HOME BROADCAST radios to be Excellent, Sensitive, Selective HF, VHF, and UHF RECEIVERS; Tunable and/or crystal controlled — by just plugging in the NEW TUNAVERTER into the antenna input of the auto radio! (Use coupling loop for home and transistor radios)

— NO SOLDERING — NO SPECIAL ANTENNA — INSTALLS IN MINUTES —
TUNAVERTERS made only with 100% American Parts — output on 1500 kcs.
SENSITIVITY — usable signal of 1/2 microvolt below 60 mcs., .9 microvolt above 60 mcs.

FAMOUS S LINE!

- Tunable control or
- Crystal control at the Flip of a switch!
- Interchangeable crystals within band coverage!
- Built-in SQUELCH!
- 12 volt powered!

The Most VERSATILE converter: King of the Converters!

This is the TOP OF THE LINE—The TUNAVERTER Designed to the specifications of PROFESSIONALS! This one converter has ALL the many features requested by thousands of policemen and firemen throughout the United States! THIS IS THE PROFESSIONAL CONVERTER DESIGNED FOR PROFESSIONAL USERS!

- 3 section tuning capacitor
- 6-1 reduction tuning
- Fully adjustable squelch.
- 4 1/2 x 2 1/2 x 3 1/4 inches.

Model 348S, 33-48 mcs.
Model 1564S, 150-164 mcs.,
Model 1828S, 118-128 mcs., Aircraft
ONLY \$44.95 each
(less crystal not needed for tunable use.)

FAMOUS T LINE! Tunable only, 9 volt powered.
Marine 2 to 2.85 mcs. \$19.95
Shortwave SWL 9.5 to 16 mcs. \$19.95
SWL & WWV & CHV 7.33 to 16 mcs. \$24.95

CRYSTALS for X, S, & PRO lines, 1,000 in stock!
State EXACT Listening frequency, output 1500 kcs., \$5.10 ea. ppd.

NEW PRO LINE!

- Built in SQUELCH!
- 2 selectable frequencies!
- Both Crystal controlled!
- 12 volt powered.

The perfect solution for low cost noiseless reception for any 1 or 2 frequencies between 26 to 175 mcs. Frequencies must be within 3% of each other. Complete with mount, coax, crystals as ordered, and instructions.

- Fully adjustable squelch. • 4 1/2 x 2 x 3 inches.
- Crystals interchangeable within preset range.

Please state Exact Listening Frequencies:
PRO with one crystal, complete \$39.95
PRO with two crystals, complete \$44.95

NEW SC LINE!

- Now an Economical single frequency converter available from 26 to 200 mcs.!

Simple, foolproof converter that will do an excellent job on any one frequency. Squelch can be added!

- 12 volt powered. • 4" x 1 1/2" x 2 1/2"
- Complete with crystal, mount and cable.

Please state EXACT Listening Frequency.
Model SC, single channel \$24.95
Model SC (W) for 162.55 mc. weather only \$19.95

Coupling Loop & Extension Antenna for using all Tunaverters with Home and Transistor radios \$3.95

an SA-3 ULTRASONIC INTRUSION ALARM takes only minutes to install... ...a burglar just takes!

The Euphonics SA-3 Intrusion Alarm utilizes an absolutely foolproof ultrasonic principle. A briefly sustained motion by an intruder in the secured area actuates any alarm device, including supervised systems, central station systems, telephone dialers, etc. The SA-3 operates from a 24-volt A.C. source, supplied by U/L Class 2 transformer. A standby power supply is automatically energized in case of A.C. power failure.

The SA-3's effective range, depending upon area acoustics, may be adjusted from 6 to 28 feet by a variable control on the rear panel. A tamper proof cover protects the SA-3's controls and connections preventing alteration or disconnection.

Special filters, delay circuits, and shielding provide exceptional stability and eliminate RF interference. Write for complete technical data.

FEATURES AND SPECIFICATIONS:

Range:	Adjustable, 6-28 feet, depending upon area acoustics
Standby Power:	Internal rechargeable NiCad battery
Operation:	Palladium-contact control relay provides normally open or normally closed contacts
Circuitry:	Fully transistorized. All electronic components conservatively rated to insure efficient, trouble-free operation. Circuit boards and transducers treated for moisture and fungus protection
Enclosure:	Grey steel, 10" x 4½" x 1¾" Swivel mounting bracket available

Weapons

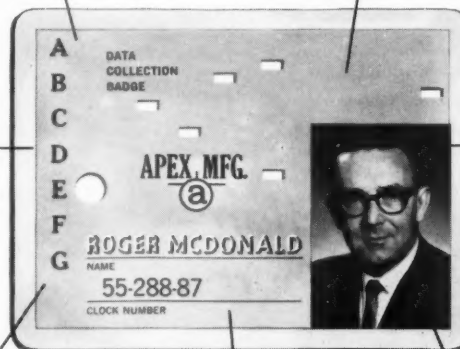

Gripevine, The; Vol. VI, No. 2 (February 1969)

Tough card to beat.

Virtually tamper proof. GBC heavy-duty lamination heat seals identity card in plastic. Cannot be peeled, chipped and is highly tamper resistant.

Anybody can do it. Any employee, with a little instruction, can run the show. It's simplicity itself with the GBC ID card system.

Perfect for EDP input. Rigid plastic laminating film can be Hollerith punched and embossed for imprinting.

GBC is most versatile card. Five basic GBC systems give you unlimited versatility in black and white or color photos.

Black and white ID card as low as 9¢. This includes total cost of all supplies. Color photo ID card costs as little as 15¢.

Card ready in less than 60 seconds. Finished, laminated, black and white photo ID card in one minute. Color photo takes only a little longer.

Color code to a variety of needs. Change card stock, picture, film or imprinting to fit specific needs. Same-ness is out with this GBC ID card system.

Please send me more information about the GBC photo ID card system and a copy of your new IDEAS HANDBOOK. No obligation.

IT'S NOT A BLOUSE!
IT'S NOT A REEFER!
IT'S NOT A CAR COAT

IT'S THE ALL NEW
ALL-IN-ONE

Unicoat™

by BEST UNIFORM CO., INC.

DESIGNED FOR TRIPLE DUTY
TO KEEP BUDGET COSTS DOWN!

CHECK THESE FEATURES:

TWO-WAY ZIPPER FRONT with Snap Police Metal Buttons adjust for comfortable sitting. Gives easy access to gun and equipment worn under coat.

GUN OPENING: Concealed pocket opening allows gun to be worn on outside of garment with holster secured to standard gun belt underneath.

CONVERTIBLE COLLAR: Collar can be closed around the neck for maximum cold weather protection. Attachable high pile fur-like collar is available as an option.

NEW ZIPOUT LINER: Wind resisting, warmth retaining liner is super thin and light weight, so light, it will not change fit of coat when removed.

DRESS or DUTY STYLING: Finely tailored of 16½ oz. all wool elastique for the Dress Uniform look, yet designed for non-restrictive ease of movement for any duty assignment.

DO YOU REMEMBER?

... if your door was locked — after you left the building?

A single, simple system can analyze control and shape traffic patterns. Eliminates the need to physically check each door.

Maximum security is provided indicating whether the door is presently locked — unlocked — or has been unlocked and relocked!

- Incorporates easily into most masterkey systems.
- Remotely or locally monitors 'locked' doors continuously.

Security consulting service for research development and implementation to resolve problems relating to locking — alarming and monitoring.

Surveillance SEQUENCE CAMERA with 107° undistorted field of view!

This unique, self-powered, fixed-focus surveillance and time-study sequence camera, especially designed for use in banks, retail establishments, at military and industrial installations, for mob activity documentation, in-plant or on-site efficiency studies, etc., features a horizontal area coverage of 107 degrees with virtually no distortion, and a 6 to 150-foot depth of field. Photographs are readily acceptable as legal evidence. The camera's extreme coverage permits monitoring of an area that would normally require two conventional cameras.

FEATURES

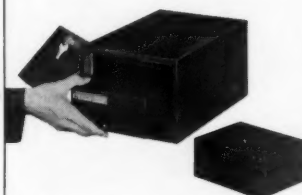

- 150' unperforated 35mm film capacity, 350 frames in 5 minutes, 1 1/4" x 5" format.
- Daylight-loading cassette magazine, only a few seconds to insert.
- Manual cycling, or automatic with alarm activation.
- No additional soundproofing required.
- Easy to install, anyone can operate.
- Compatible with all normal alarm systems.
- Low initial and operating costs.
- Unconditionally guaranteed.
- Price: under \$1000.

Write, wire or phone for detailed literature.

Dealer inquiries invited.

They're the World's Strongest

Two hardened steel balls securely lock and hold the shackle in a vise-like grip.

AMERICAN PADLOCKS

From experience, security people everywhere just naturally expect the highest degree of security from Junkunc Bros., American padlocks. The examples above, dramatically show actual padlocks that were exposed to severe battering, twisting, filing and sawing, but the shackles held and security was not defeated. When security demands the "Best Padlock That Money Can Buy" . . . buy Junkunc Bros., American — the ones the burglars hate . . . the padlocks with the ball locking shackles . . . Recommended by leading insurance companies.

dealers 3 ways to profit

WITH THIS REVOLUTIONARY NEW ALARM SYSTEM

1. a Radar Detection System
2. a Stress Sensor System
3. a Perimeter System

All in a Single Master Control

ONLY DETECTRON gives you all three sure-selling features — reliability...ease of installation...service free — in an all-solid-state electronic security system utilizing the latest integrated computer circuitry. This means wider area coverage, more protection, greater dependability.

Unique DETECTRON system can be custom-tuned to any desired radius, it discriminates between random motion and continuous human movement, offers tested, proven reliability at a cost far below that of less-sophisticated alarm systems.

SAVE \$100 ON A NEW DEMO UNIT.

Attractively packaged self-contained demo unit literally sells itself. Regular production components actually cost \$455, you pay only \$350. Offer limited to 1 per dealer with a money-back guarantee (within 10 days) for your complete satisfaction. Write for additional information. Choice dealerships immediately available.
